Management Team

Rik J Deitsch *Chairman and Chief Executive Officer of Nutra Pharma Corp.*

Rik Deitsch has been the President, Chief Executive Officer and a Director of the Company since November 7, 2002. From February 1998 through November 2002, Mr. Deitsch served as the President of NDA Consulting Inc., a biotechnology research group that provided consulting services to the pharmaceutical industry. NDA Consulting specialized in the research of peptides derived from cone snail venom, cobra venom and gila monster venom. Mr. Deitsch holds both a B.S. in Chemistry and an M.S. in Biochemistry from Florida Atlantic University and has conducted clinical and laboratory research in collaboration with scientists at Duke University Medical Center and the Cleveland Clinic. Mr. Deitsch is an adjunct professor and teaches several courses for Florida Atlantic University's College of Business and Continuing Education Department.

Paul Reid, PhD *Chief Executive Officer of ReceptoPharm, Inc.*

(Nutra Pharma Holding Company) Paul F. Reid, Ph.D., is a Co-Founder and Chief Executive Officer of ReceptoPharm. Dr. Reid is equipped with a broad scientific background, encompassing 14+ years in clinical development and research, with a direct approach to moving products from preclinical into clinical phases. He worked with drug regulatory agencies in the US, Canada, EU, South America, South Africa, and China to enable pharmaceutical companies to move ahead, save millions of dollars on research and testing in clinical trials, and gain

Investigational New Drug (IND) approvals. By leveraging his comprehensive understanding of regulatory requirements, he guides new projects through the correct protocols at a minimum budget and advances products to position them for licensing and manufacturing. Dr. Reid's expertise in laboratory practices allows Nutra Pharma to select new technologies that enhance production, quality control, and product formats. Dr. Reid has a Bachelor's Degree in Microbiology from Trinity College in Dublin, Ireland and a Ph.D. in Neurobiochemistry from Imperial College in London, England. He is a leading world expert in the therapeutic use of snake venom neurotoxins.

What We Do

Nutra Pharma Corp. through its subsidiaries carries out basic drug discovery research and clinical development and also seeks strategic licensing partnerships to reduce the risks associated with the drug development process. The Company's holding, [ReceptoPharm](#), is developing technologies for the production of drugs for HIV and Multiple Sclerosis ("MS"). The Company's subsidiary, [Designer Diagnostics](#), is engaged in the research and development of diagnostic test kits designed to be used for the rapid identification of infectious diseases such as Tuberculosis (TB) and Mycobacterium avium-intracellulare (MAI).

Current Products

Cobroxin

<http://cobroxin.com/>

Cobroxin is the first over-the-counter pain reliever clinically proven to treat various levels of chronic pain associated with lower back pain, shoulder pain, cramps, migraines, neuralgia and arthritis.

Nyloxin

<http://nyloxin.com/>

Nyloxin™ is a new over-the-counter pain reliever primarily aimed at treating moderate to severe chronic pain. Using a pain scale of 1 to 10, Nyloxin™ may be used to treat pain in the range of 2-6. Nyloxin™ Extra Strength is recommended for people experiencing severe pain, usually above a threshold of 6.

Current Research

Nutra Pharma, through its subsidiary ReceptoPharm, has a pipeline of biopharmaceutical products under development. These research and development pipeline products consist of several novel therapies in various stages of development to prevent and/or treat multiple sclerosis, HIV/AIDS, adrenomyeloneuropathy, herpes, rheumatoid arthritis and pain.
